

STANDARD RESPONSE PROTOCOL

STUDENT SAFETY

A critical ingredient in the safe campus recipe is the uniform response to an incident. Weather events, fires, accidents, intruders and other threats to student and staff safety are scenarios that are planned and trained for by campus administration.

THE STANDARD RESPONSE PROTOCOL

The Standard Response Protocol (SRP) is based on an all-hazards approach as opposed to individual scenarios. Like the Incident Command System (ICS), SRP utilizes clear common language while allowing for flexibility in protocol.

Our campus is expanding the safety program to include the SRP, which is based on these five actions: Lockout, Lockdown, Evacuate and Shelter. In the event of an emergency, the action and appropriate direction will be called on the public address system and delivered to your campus safety application.

Timely notification is essential with any type of crisis. Please verify that your contact information is current in the campus notification system.

Hold

“In Your Common Area”
